

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method for simultaneously interacting with an electronic program guide (EPG) using multiple devices comprising:

transmitting the EPG over the Internet to a web-enabled cellular phone having a first video display, wherein the EPG includes preset selections;

~~displaying the EPG on a second video display associated with a television;~~

~~simultaneously displaying the EPG on the first video display of the web-enabled cellular phone and the second video display associated with the television;~~

receiving selections entered over the Internet via the web-enabled cellular phone;

storing the EPG selections on a storage device; and

transmitting the EPG selections to be displayed on ~~the~~ a second video display associated with the television when requested.

2. (Previously Presented) The method for simultaneously interacting with an electronic program guide using multiple devices of claim 1, wherein the EPG selections are stored on a broadcast server.

3. (Previously Presented) The method for simultaneously interacting with an electronic program guide using multiple devices of claim 1, wherein the EPG selections are stored on a set top box (STB).

4. (Cancelled)

5. (Cancelled)

6. (Previously Presented) The method for simultaneously interacting with an electronic program guide using multiple web-enabled cellular phones of claim 1, further including transmitting the EPG selections over the Internet to web-enabled cellular phones when requested.

7. (Previously Presented) The method for simultaneously interacting with an electronic program guide using multiple web-enabled cellular phones of claim 6, further including transmitting the EPG selections over the Internet to multiple web-enabled cellular phones to be displayed concurrently when requested.

8. (Previously Presented) The method for simultaneously interacting with an electronic program guide using multiple web-enabled cellular phones of claim 6, further including transmitting one or more programs to be separately displayed concurrently with displaying the EPG selections.

9. (Currently Amended) A machine readable medium having stored thereon a set of instructions, which when executed cause a system to perform a method for simultaneously interacting with an electronic program guide (EPG) comprising:

transmitting the EPG over the Internet to a web-enabled cellular phone having a first video display, the EPG including present selections;

~~displaying the EPG on a second video display associated with a television;~~

~~simultaneously~~ displaying the EPG on the first video display of the web-enabled cellular phone and the second video display associated with the television;

receiving selections entered over the Internet via the web-enabled cellular phone;

storing the EPG selections on a storage device; and

transmitting the EPG selections to be displayed on ~~the a~~ second video display associated with the television when requested.

10. (Previously Presented) The machine readable medium of claim 9, wherein the EPG selections are stored on a broadcast server.
11. (Previously Presented) The machine readable medium of claim 9, wherein the EPG selections are stored on a set top box (STB).
12. (Cancelled)
13. (Cancelled)
14. (Previously Presented) The machine readable medium of claim 9, further including transmitting the EPG selections over the Internet to the web-enabled cellular phone to be displayed when requested.
15. (Previously Presented) The machine readable medium of claim 14, further including transmitting the EPG selections over the Internet to multiple web-enabled cellular phones to be displayed concurrently when requested.
16. (Original) The machine readable medium of claim 14, further including transmitting one or more programs to be separately displayed concurrently with displaying the EPG selections.
- 17-24. (Cancelled)
25. (New) The method for simultaneously interacting with an electronic program guide using multiple devices of claim 1, wherein the EPG includes an indication of which buttons are appropriate for the EPG.
26. (New) The machine readable medium of claim 9, wherein the EPG includes an indication of which buttons are appropriate for the EPG.
